Dear Mr. Schnoor:

On August 4, 2015, the Division of Oil, Gas and Mining (Division) received the response to its July 20, 2015, comments. The Division approves this submittal for inclusion in Appendix L of the Notice of Intention, and a copy is included for your copy of the Notice.

The Division recommends that remediation work continue as weather permits including buttressing and capping the leach pads.

**The approval or acceptance of a complete notice of intention does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations.**

Please contact Leslie Heppler at 801-538-5257 or me at 801-538-5261 if you have questions about this action. Thank you for your cooperation.

Sincerely,

Paul B. Baker  
Minerals Program Manager
